## Rational and Other Animals

Philosophy of mind and language workshop

José Luís Falguera – University of Santiago de Compostela

Sofia Miguens – University of Porto

Donald Davidson

John McDowell

At the background of the workshop are Donald Davidson's paper *Rational Creatures* (1982) and John McDowell's position on animal minds in *Mind and World* (1994). Questions regarding perception, the conceptual and the non-conceptual will be addressed in their relation to the contrast between human and (other) animal minds.

Sponsored by Project *Cognitive Attitudes and the Justification of Knowledge*, FFI2009-08828, Ministério de Ciencia y Innovación, Espanha
